

Measuring Tips

When you're measuring ingredients, remember to:

- Put your **recipe** where you can see it.
- Get all your **ingredients** out.
- Check the recipe to see **how much** of each ingredient you need.
- Measure each ingredient with the correct **measuring cup** or **spoon**.
- **Double check** each measurement in the recipe **before** adding the ingredient to the bowl.

Abbreviations you might see in a recipe:

* tbsp = tablespoon

* oz = ounce

* tsp = teaspoon

* pkg = package
