

# Prescription Tips

## When you go to a pharmacy to get a prescription filled:

- Take your prescription to the **drop-off counter**.
- Complete any **forms** the pharmacist gives you. You might need to fill in your:
  - \* Name   \* Phone number   \* Address   \* Doctor's name   \* Emergency contact
  - \* Age   \* Date of birth   \* Allergies   \* Doctor's phone number   \* Insurance policy number
- You may also need to show the pharmacist your **insurance card**, if you have one, and tell him or her about **other medicines** you're taking.
- Ask the pharmacist how long it will take the medication to be **ready for pick-up**.
